

We have put together a questionnaire for you that will help us to find out the story behind your home renovation. If you wish to send this on a word document or even in the body of an email, rather than completing this questionnaire, we would welcome it with open arms. Write with the heart; don't worry too much about style, as we will help to bring everything together for you.

We now need to know about the most important suppliers – your builder, architect and photographer that captured your dream home. This information is vital, as you should credit where credit is due. If you have used a professional photographer, it is also highly likely that your photographer owns the rights to your images. Of course we want to celebrate their work, reference them throughout our site and use them for our future projects if we can.

YOUR STORY

We would like to get your thoughts, findings, decisions and reasons as to why you chose the following designs for your home. Share your struggles, your loves, all of your design process and the finished home itself and how it feels to live there. The more we know about your story, the better the feature will capture your beautiful home.

1. Tell us about the story behind finding your house and why you chose to live there?

2. What was your colour scheme and why did you choose to use those colours? Why did you pick them for each particular room?

3. Would you say the design of your house was traditional, modern, chic or something else?

4. Do you have any future interior design plans for your house, or is it now finished?

5. Tell us about your furniture purchasing stories and why you chose certain pieces

We want to continue to get to know your interior design story, through asking you lots of different questions about your renovation process. Don't worry about the answers; we just want you to write from the heart. If you think a section isn't relevant just leave it blank.

6. Why did you choose your artwork and where did you get it? *

* It doesn't matter if your artwork was passed down through the family or if it's old

7. What type of flooring did you choose for each room and why?

8. What type of wallcoverings did you choose for each room and why?

9. Tell us all about the story of finding your builder/ architect and deciding your floor plan

10. Tell us all about the soft furnishings and accessories and why you chose them

11. How did you select and design the kitchen for your home?

12. How did you select and design the bathrooms for your home?

13. What lighting did you choose and why?*

*This not only includes main fittings, but also any floor lamps, bedside lamps or outdoor lighting

A HUGE THANK YOU

We hope you enjoyed writing about your interior design and reminiscing about your project just as much as we are about to love reading it. Once again, thank you for submitting details about your dream home. We cannot wait to share your ideas, inspirations, thoughts and home with the world.

If you could please send both your images and filled out questionnaire, whatever format that may be, to Becca, our founder, at submissions@houseofthree.co.uk we will be so grateful.

We look forward to featuring your home on our brand new blog. Of course you will be the first to see it – we will personally send you the link as soon as it is live.
